

ASSIGNMENT 2

CODE:

```
import random
```

```
print("TEMPERATURE CHECK\n")
```

```
print("Enter range for temperature")
```

```
x=int(input())
```

```
y=int(input())
```

```
print("Enter range for humidity")
```

```
s=int(input())
```

```
k=int(input())
```

while(True):

```
temp=random.randint(a,b)
```

```
hum=random.randint(C,D)
```

```
if(temp>100 and hum>50):
```

```
    print("HAZARD")
```

```
else:
```

```
    print("NOT HAZARD")
```
